

Cameron Yau, MD

Hip and Knee Replacement

Welcome to Orthopaedic Associates of Southern Delaware

I specialize in primary total hip and knee replacement, as well as revision of existing total joint replacements. I am specially trained in hip replacement techniques using a minimally invasive anterior approach which allows for a quicker and less painful recovery. I am board certified by the American Board of Orthopaedic Surgery and by the Royal College of Physicians and Surgeons of Canada.

Originally from Toronto, Canada, I completed an undergraduate degree at Western University before attending medical school at McGill University in Montreal, Canada. I then completed a 5 year residency program at the University of Toronto, one of North America's largest Orthopaedic Surgery training programs. I subsequently moved to New York City where I completed the Complex Adult Hip and Knee Reconstruction Fellowship at Lenox Hill Hospital. There I worked directly with some of the world's leading hip and knee replacement surgeons.

I am pleased to be part of the healthcare team caring for the southern Delaware community. I join the practice from southwest Michigan where I have been in practice for the past 7 years and where I acted as Chief of Surgery.

I am excited to be relocating to southern Delaware and to join our skilled group. I enjoy golf, boating and fishing, as well as travel.

Sincerely,

A handwritten signature in white ink, appearing to read 'Cameron Yau', written over a blue background.

Dr. Cameron Yau

What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
