

Mark Menendez, DPM

Surgical and Nonsurgical Foot Care

Welcome to Orthopaedic Associates of Southern Delaware

As a board-certified Podiatric surgeon, I utilize both operative and non-operative treatment to improve my patients' quality of life and get them back to the activities they enjoy. I perform elective foot surgery for a variety of disorders including bunions, hammertoes, and tendon and skin lesions. I also treat Diabetic foot conditions and sports related injuries.

After I earned a Bachelor of Arts from Trinity College (CT), and a Master of Architecture degree from Carnegie Mellon University, I found that I enjoyed working with my hands and had a great desire to be of service to other people. I attended 3 semesters of pre-med at University of Maryland, Baltimore County at which time I also worked as a phlebotomist and anesthesia tech at Shock Trauma in Baltimore. I subsequently went to Temple University School of Podiatric Medicine. My residency training in Podiatric Medicine and Surgery was completed at St. Francis Central Hospital in Pittsburgh where I served as chief resident in my final year. I have had the privilege of serving the Sussex County, Delaware community since completing residency training in 2000. I have been included in the 'Top Doc' listing by Delaware Today magazine multiple years, most recently in 2022.

I am a native of Towson, Maryland with family roots on Maryland's Eastern Shore. Together with my wife, Jill, we have raised three children in our adopted home state.

I look forward to partnering with you in your treatment and providing you with excellent podiatric care.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Menendez'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Dr. Mark Menendez

What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
