

Ron Sabbagh, M.D.

Board Certified in Orthopaedic Surgery

Welcome to Orthopaedic Associates of Southern Delaware

As a board certified orthopaedic surgeon specializing in neck and back surgery, I am focused on relieving pain and instability in the spine. Procedures I perform include spinal fusion, laminectomies, discectomies and spinal instrumentation. I treat sciatica, spinal stenosis, disc degeneration and any other conditions of the spine. I joined Orthopaedic Associates of Southern Delaware in 2001 to start the spine program in Lewes and am currently one of only three fellowship-trained spine surgeons in southern Delaware.

I've been in practice for over 25 years and was the chief of surgery for Beebe Medical Center for several years. I'm very proud of the orthopaedic and spine program we developed at Beebe Medical Center (now Beebe Healthcare), which has been named the top spine program in the State of Delaware by Healthgrades and one of the top 50 spine programs in the country.

I'm passionate about using the most up-to-date, sophisticated spine surgical techniques, including minimally invasive surgery. I have been named a Top Doc by Delaware Today Magazine multiple times, most recently in 2021, based on a survey of licensed physicians in Delaware.

Please let me know if there is anything I can do to help you, or to make your visit easier. I look forward to seeing you soon.

Sincerely,

Dr. Ron Sabbagh

Ron Sabbagh, M.D.

What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
