Board Certified in Foot, Rearfoot, and Ankle Surgery

## Welcome to Orthopaedic Associates of Southern Delaware

As a board certified foot and ankle surgeon, I am focused on the comprehensive treatment of the foot and ankle, both operative and non-operative. Conditions I treat include plantar fasciitis, fractures, hammertoes, tendon injuries, sprains, neuromas, and wounds. I have a special interest in the diabetic foot and ankle; and underwent additional fellowship training in diabetic foot and ankle reconstruction at the University of Texas Health Science Center in San Antonio. My training and surgical expertise allows me to offer an unparalleled approach to managing non-healing wounds. My goal is to expedite your recovery, and allow you to return to the activities you love.

Outside of medicine, I enjoy hiking, jogging and listening to live music, -especially bluegrass and acoustic guitar. I love traveling and exploring new cities and cuisines, but also love returning to my roots in York, PA. Above all, I love spending time with my wonderful husband, children, and extended family.

Please let me know if there is anything I can do to help you, or make your visit easier. I look forward to seeing you soon.

Sincerely,

A handwritten signature in blue ink, appearing to be 'C. Capobianco'.

Dr. Claire Capobianco

## What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
