

Roman Orsini, D.P.M., FACFAS

Board Certified in Foot and Reconstructive Ankle Surgery

Welcome to Orthopaedic Associates of Southern Delaware

As a board certified foot and ankle surgeon, I am focused on treatment of the foot and ankle; both operative and nonoperative. Conditions I treat include arthritis, flatfoot, plantar fasciitis, bunions, neuromas, sprains, fractures, and tendon injuries. I have a special interest in lower extremity reconstruction and total ankle replacement. Total ankle replacement (TAR) is now the standard of care in metropolitan areas and here in Lewes. I am passionate about the TAR program we founded at Beebe Hospital in 2015. We are the only Delaware hospital which routinely and successfully performs TAR.

Outside of medicine, I enjoy a round of golf, heading to the mountains for some skiing, or going to the range to shoot. As a Pittsburgh native, football season is a sacred time when I relentlessly cheer on my Steelers. Most importantly, I love spending time with my wife and our three beautiful children, which on weekends often finds us on the drive on beach.

Please let me know if there is anything I can do to help you, or to make your visit easier. I look forward to seeing you soon.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Orsini'. The signature is fluid and cursive.

Dr. Roman Orsini

What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
