

Joseph Farrell, D.O.

Hip & Knee Replacement

Welcome to Orthopaedic Associates of Southern Delaware

As a board-certified orthopedic surgeon, I specialize in hip and knee replacement surgery. In addition, I perform outpatient knee arthroscopies and am excited to be involved in the introduction of a Platelet Rich Plasma (PRP) program at OASD in the treatment of knee disorders.

After graduating from Villanova University, I attended Philadelphia College of Osteopathic Medicine, where I earned a Doctor of Osteopathy degree. I completed 5 years of orthopedic residency in Philadelphia, Baltimore, and Boston, followed by a fellowship at the Texas Hip and Knee Center in Fort Worth. There, I performed more than 600 joint replacements in a year, and I learned cutting-edge minimally invasive hip and knee replacement techniques. I have been a practicing surgeon in Sussex County since 2015, and joined OASD in 2019, where I found a welcoming patient population and have experienced excellent success with surgical outcomes.

I offer patients the latest technologies to optimize postsurgical outcomes. I am committed to working with my patients to optimize not only their surgical outcomes but their overall health and wellness. I look forward to working with you.

Sincerely,

A handwritten signature in white ink, appearing to be 'JF', written over a blue background.

Dr. Joseph Farrell

What to Expect:

Thank you for your patience and understanding while filling out our forms. Giving us complete and accurate information will allow us to provide you with the best possible care. We also appreciate your patience to see a physician. In certain cases, our patients require special and/or immediate attention; such as your physician being asked to assess a serious injury. Our goal at Orthopaedic Associates of Southern Delaware is to address your needs as soon as possible and in an individualized manner. We want to make sure you get the care you need and want. If you require immediate attention, please inform our front desk so that we may expedite your request. Thank you.
